

Expand Your Horizons!

Because it is constantly expanding and information is being added constantly, the amount of information on the internet cannot be measured. However, this does allow us to learn about things we have never seen or heard about before from books, television, or other forms of media. A whole new world of information is waiting for us to discover. Never before in human history has information been so readily available!

In this activity, you and your group will be assigned one of the following websites to explore and research. At the end of the research time, be prepared to present a 2-minute summary of your findings, followed by a 2-minute question and answer session with your peers.
